With the Concrete Solutions® Broom Finish System you can now repair and resurface concrete without having to remove and replace existing concrete surfaces. The Broom Finish System offers excellent bonding strength and durability designed to stand the test of time. It can be applied in a straight or swirl pattern finish with a fine, medium or coarse texture and is most commonly used on patios, driveways, walkways, parking garages, highways and bridges. When used in conjunction with the 1/8" Stamping System, ordinary concrete is transformed into art.

PRODUCTS YOU MAY NEED:

- Resurfacer Bag Mix
- Integral Color Paks
- Concrete Colorcoat
- Sealcoat 1000
- Metal Squeegee
- Broom
